HELPING YOU STAY SAFE FOR TRAVEL, AT WORK , AND AT HOME

Infection control does not have to be complicated. It just needs proven, certified products that perform efficiently and safely. **PPE Defends** address these requirements through the application of technology and proven science with our complete range of mask and sanitiser products.

Our Graphene masks have been tested in SGS certified laboratories together with Hypochlorous Sanitiser as an anti-viral cleanser. As a result the masks can be used over 10 cycles of wear and sanitisation without losing efficacy.

Hypochlorous acid (HOCl) is a powerful weapon in the fight against Covid-19, all viruses and Bacteria. It is **100 percent** safe for humans. Chemical free, **non-toxic** and all-natural. Produced by the body in small amounts, it forms an important part of the body's natural immune system.

PPE Defends hypochlorous disinfectant works in seconds. Ideal for busy Transport Companies, Offices, Factories, Schools, Care Homes, Food Processing, Hospitality and many other Businesses.
